

ANIBAL CAMPOS

Summary

Motivated Full-stack web development graduate with experience working in teams to build apps from the ground up. Praised for great communication having worked with a variety of people of all walks of life. In the web development world I look forward to using my communication skills to work with people and teams to develop innovative solutions.

Employment

Fedex

2017 to 2019

Freight Handler

Managed daily freight shipments, communicating with team supervisor to surpass weekly goal of transferring 210 freight items over 2000 lbs in weight.

QuikTrip

2016 to 2017

Assistant Manager

Managed a small team, communicating(providing feedback) with team members to reach our daily goals of keeping the store looking pristine as well as keeping a safe and friendly environment for both customers and employees. Other tasks: Cash audit before taking over shift, Ordering merchandise, Run sales at the registers.

Clerk

2012 to 2016

Managed daily tasks of keeping our store spotless while providing awesome customer service. Continuous communication with other clerks and manager as well providing feedback.

Projects

Jarvis 2.0

July 2018 to July 2018

- Healthcare app which lets users search different hospitals for the cost of a certain non-emergency procedure within a given radius.
- App is useful because many people don't know that there may be a hospital further away which can perform the same procedure much cheaper than the local hospital some can save thousands.
- Technologies: React, Javascript, Google Oauth2.0, API's, React-redux, Passport, Mongo, Express, Axios.

Clicky-Game

2018 to 2018

- Game where the user must click on images without repeating a click on the same image. Images randomly reorganize themselves after each click. High Score is saved until a new high score is reached.
- Technologies: React.

Awards

The University of Arizona Office of Continuing & Professional Education · Full Stack Web Development

July 2018

Description:

The University of Arizona Full Stack Web Development badge is given to individuals who have successfully completed an intensive coding boot camp and demonstrated a working knowledge of more than two dozen codes. They have also successfully built original, fully functional web applications.
